CONTENTS

Number 1

J. R. WATSON *and* J. W. PARSONS. Studies of Soil Organo-Mineral Fractions. I. Isolation by Ultrasonic Dispersion 1

J. R. WATSON *and* J. W. PARSONS. Studies of Soil Organo-Mineral Fractions. II. Extraction and Characterisation of Organic Nitrogen Compounds . 9

F. J. HINGSTON, A. M. POSNER, *and* J. P. QUIRK. Anion Adsorption by Goethite and Gibbsite. II. Desorption of Anions from Hydrous Oxide Surfaces 16

A. POULOVASSILIS. The Uniqueness of the Moisture Characteristics . . 27

D. T. PRITCHARD. A Method for Soil Particle-Size Analysis using Ultrasonic Disaggregation. 34

A. H. FITTER. A Relationship between Phosphorous Requirement, the Immobilization of Added Phosphate, and the Phosphate Buffering Capacity of Colliery Shales 41

G. ANDERSON, E. G. WILLIAMS, *and* JACQUELINE O. MOIR. A Comparison of the Sorption of Inorganic Orthophosphate and Inositol Hexaphosphate by Six Acid Soils 51

R. F. HAMMOND. The Preservation of Peat Monoliths for Permanent Display 63

W. KANTOR *and* U. SCHWERTMANN. Mineralogy and Genesis of Clays in Red-Black Soil Toposequences on Basic Igneous Rocks in Kenya . . 67

M. GAL, A. J. AMIEL, *and* S. RAVIKOVITCH. Clay Mineral Distribution and Origin in the Soil Types of Israel 79

M. V. CHESHIRE, C. M. MUNDIE, *and* H. SHEPHERD. Transformation of Sugars when Rye Hemicellulose Labelled with ^{14}C Decomposes in Soil . 90

I. M. ELTANTAWY *and* P. W. ARNOLD. Ethylene Glycol Sorption by Homoionic Montmorillonites 99

R. G. MCLAREN *and* D. V. CRAWFORD. Studies on Soil Copper. III. Isotopically Exchangeable Copper in Soils 111

R. WEBSTER *and* P. A. BURROUGH. Multiple Discriminant Analysis in Soil Survey 120

Number 2

A. J. LOW *and* P. R. STUART. Micro-Structural Differences Between Arable and Old Grassland Soils as Shown in the Scanning Electron Microscope . 135

REUVEN STEINHARDT *and* B. D. TRAFFORD. Some Effects of Sub-Surface Drainage and Ploughing on the Structure and Compactability of a Clay Soil 138

A. R. DEXTER *and* D. W. TANNER. Time Dependence of Compressibility for Remoulded and Undisturbed Soils 153

I. G. BURNS. A Model for Predicting the Redistribution of Salts Applied to Fallow Soils after Excess Rainfall or Evaporation 165

A. D. BURNETT. The Modification and Application of the Quantitative X-Ray Diffraction Method of Schultz (1964) to the Mineralogical Study of London Clay Samples . . . . . .

CONTENTS (*continued*)

O. K. Borggaard. Experimental Conditions Concerning Potentiometric Titration of Humic Acid 189
I. Danilo Lopez-Hernandez *and* C. P. Burnham. The Covariance of Phosphate Sorption with Other Soil Properties in Some British and Tropical Soils 196
I. Danilo Lopez-Hernandez *and* C. P. Burnham. The Effect of pH on Phosphate Adsorption in Soils 207
K. A. Smith *and* R. J. Dowdell. Field Studies of the Soil Atmosphere. I. Relationships Between Ethylene, Oxygen, Soil Moisture Content, and Temperature 217
R. J. Dowdell *and* K. A. Smith. Field Studies of the Soil Atmosphere. II. Occurrence of Nitrous Oxide 231
B. D. Mitchell *and* B. F. L. Smith. The Removal of Organic Matter from Soil Extracts by Bromine Oxidation 239
I. C. R. Holford, R. W. M. Wedderburn, *and* G. E. G. Mattingly. A Langmuir Two-Surface Equation as a Model for Phosphate Adsorption by Soils 242
E. Opuwaribo *and* C. T. I. Odu. Fixed Ammonium in Nigerian Soils. I. Selection of a Method and Amounts of Native Fixed Ammonium . 256

Number 3

G. G. Beckmann, C. H. Thompson, *and* G. D. Hubble. Genesis of Red and Black Soils on Basalt on the Darling Downs, Queensland, Australia . 265
G. Anderson *and* R. E. Malcolm. The Nature of Alkali-Soluble Soil Organic Phosphates 282
G. D. Towner. The Assessment of Soil Texture from Soil Strength Measurements 298
G. D. Towner. A Note on the Plasticity Limits of Agricultural Soils . 307
A. Singer *and* A. J. Amiel. Characteristics of Nubian Sandstone-Derived Soils 310
B. W. Bache. Soluble Aluminium and Calcium-Aluminium Exchange in Relation to the pH of Dilute Calcium Chloride Suspensions of Acid Soils . 320
B. M. Tucker. Displacement of Ammonium Ions for Cation Exchange Capacity Measurements 333
G. Dell'Agnola *and* G. Ferrari. The Effect of Free and Clay-Bound Humic Matter on the Uptake of Sulphate by Roots 338
Kurt Bunzl. Kinetics of Ion Exchange in Soil Organic Matter. II. Ion Exchange During Continuous Addition of Pb^{2+}-Ions to Humic Acid and Peat 343
M. J. Abedi *and* O. Talibudeen. The Calcareous Soils of Azerbaijan. I. Catena Development Related to the Distribution and Surface Properties of Soil Carbonate 357
M. J. Abedi *and* O. Talibudeen. The Calcareous Soils of Azerbaijan. II. Phosphate Status 373
A. Feigin *and* D. H. Yaalon. Non-Exchangeable Ammonium in Soils of Israel and its Relation to Clay and Parent Materials 384
